Educational Seminars and Webinars on Global Market Access

Throughout the fall, TÜV Rheinland will offer free Global Market Access seminars in California and Massachusetts where customers can learn about global compliance from experts on the international approval process. In addition, there will be several other specific webinars that are offered in September through December.

Seminar attendees can expect to learn more about:

- The significance of regulatory rules
- An overview of product safety, electro-magnetic compatability (EMC) and radio/telecom regulatory structures
- Significant changes projected for 2012 in regulatory regulations for key countries (Brazil, Russia, China, Korea, Mexico and others)
- Impacts of RoHS-2 and REACH for product manufacturers selling into the European Union
