# RFMW and MAJR Products Announce Worldwide Distribution Agreement

Posted by Janine E. Mooney, Editor

RFMW and MAJR Products announced a worldwide distribution agreement effective November 1, 2011. MAJR Products is a leading supplier of high performance EMI/RFI shielding products. RFMW Ltd. is a specialized distributor providing customers and suppliers with focused distribution of RF and microwave components as well as specialized component-engineering support.

According to the agreement, RFMW will distribute MAJR Products broad portfolio of electromagnetic interference (EMI) and radio frequency interference (RFI) shielding products including conductive gaskets, form-in-place gasketing, shielded tents, sticky fingers, elastomers, EMI windows, board level (EMI/RFI) shielding, and air ventilation/filtration panels.

“We are excited about our new relationship with RFMW“, said Mark Stoner, VP Business Development for MAJR Products. “MAJR understands the complexities of today’s’ shielding requirements. Our products are engineered to reduce or eliminate the noise associated with electronic circuits. Leveraging RFMW’s account base and expertise in RF component support will make it easier for customers to find EMI/RFI solutions that fit their particular requirements.”

Mr. Stoner added that his organization is convinced “RFMW’s component engineering skills will allow RFMW to engage customers early in the design process. They have the resources, experience, and extensive market knowledge to expand our product coverage throughout their customer base”.

According to Joel Levine, president of RFMW Ltd., “Part of our guiding principle as a company is to recognize product requirements and offer solutions that support customer goals. MAJR Products EMI/RFI materials are complementary to circuit solutions we promote every day and match perfectly with RFMW’s focus on serving customers, in diverse markets, who require a wide range of RF/microwave components. Our immediate goal is expanding MAJR opportunities within existing programs. Long term, both companies will grow as a result of finding new opportunities as the market demands for effective shielding continue to grow”.
