# Teledyne Wireless

## Electronic Component Solutions for Worldwide RF and Microwave Needs

Teledyne Wireless, located in Mountain View, California, has over 40 years experience as a worldwide leader in the design, development, and manufacture of microwave components. We have delivered high quality products for markets including:
&#149Communications
&#149Aerospace
&#149Defense
&#149Aviation
&#149Instrumentation

Our Product Line Includes
&#149MMIC Power Amplifiers
&#149Electromechanical and Coaxial Switches
&#149Broadband Wireless Assemblies
&#149Ferrites

Broadband Wireless Assemblies
Teledyne Wireless offers custom, advanced design solutions for microwave and millimeterwave radio applications. Our complex assemblies and experience drives our designs and manufacturing strategy compromising the latest CAD tools, standard &quotbuilding blocks&quot enabling effective, low cost transmission media, along with automated test and assembly.
Applications include:
**&#149Microwave and Millimeterwave Point-to-Point Radios**
**&#149Microwave and Millimeterwave Point-to-Multipoint Radios**
**&#149C and Ku-Band VSAT**

**Engineering Excellence**
Although we offer many standard products, one of our greatest strengths is our ability to adapt existing designs to meet unique customer requirements. Our engineering staff has the latest CAD tools and continuously evaluates new technologies, processes, and materials to offer our customers the latest technology available. We are also investing for future growth through the development of advanced millimetric components for the next generation broadband, high-speed satellite and terrestrial telecommunications systems.
**Modern Facilities**
Teledyne Wireless occupies a 100,000 sq.-ft. building located in Mountain View. The facility contains clean rooms for MIC hybrid assembly, automated assembly and test

stations, and environmental test equipment. The manufacturing operations are constantly being examined to streamline processes, optimize efficiency, and reduce costs.

**Quality is Number One**

Our products meet varied and stringent requirements for their diversified applications. We maintain an ISO 9001 certification and every employee has a strong commitment to quality. This is the benchmark for our reputation as a world class manufacturer of advanced microwave products.

**Switches**

**&#149Switches for All Your Needs**
**&#1491,5 and 10 Million Cycles**
**&#149Low Cost, Volume Production**
**&#1492-Year Warranty**
**&#149Stock to 4-Week Delivery**

**New Switch Products Include:**
**&#149CCR-33M Series, 75 Ohm**
**&#149CCM-33s10 Series, 10 Million Cycle**
**&#149CCRO Series, Low Cost SPDT**

**Teledyne Wireless**
