2009 Eos Award Winners Announced at SUPERCOMM

CHICAGO, /PRNewswire/ -- SUPERCOMM®, the telecommunications industry's premier trade show hosted by the Telecommunications Industry Association (TIA) and USTelecom, announced the 2009 Eos Award winners on Wednesday, Oct. 22nd.

The awards honor companies that transform the communications industry through their products, services and network designs. The 2009 awards were expanded to include three new awards; international development, green services and specialized e-services.

The full suite of awards celebrate the companies pioneering new technologies, expanding efficient network services, delivering strategic support and making ongoing achievements in the industry.
