ShapeMix Music Marketplace Unveiled for iPhone and iPad Apps

(GLOBE NEWSWIRE)--ShapeMix Mobile for iPhone, an intuitive, patent-pending music mixing application that turns your device into a fully featured music studio, is now available for free download via the App Store. ShapeMix Mobile for iPhone enables music fans to simply drag and drop audio tracks with their fingertips to create an original mix and share it via www.shapemix.com, email, Facebook, Twitter and other online sites. ShapeMix for iPad is also available for paid download in the App store for $4.99.

In addition to having access to nearly 100 free tracks, ShapeMix Mobile for iPhone and ShapeMix for iPad users can now take their mixes to a new level by downloading songs from the new ShapeMix Music Marketplace. Accessible via the menu within the app, the Marketplace currently features music from Tokyo Police Club, Kid Sister, Pigeon John and
other artists. Full songs are available for $1.99 and each song is separated into audio tracks for easy mixing. A variety of influential publishers and licensing companies such as Bank Robber Music, SONGS Music Publishing and Downtown Music Publishing have signed on to contribute music that will be released on a regular basis.

To customize each mix, users can add effects like reverb, delay, flanger and low pass to each track and adjust BPM. Upon completion, mixes can quickly be shared via email, Facebook, Twitter and other online sites. Users can visit shapemix.com, like ShapeMix Music on Facebook, and follow ShapeMix Music on Twitter to receive music updates, access sample mixes and share mixes of their own.

Since being released for iPad earlier this year, the app is being used in more than 70 countries and the average mixing session is nearly an hour.
