Digi-Key Adds Honeywellâ€™s HumidIcon Digital Humidity/Temperature Sensors to Expansive Line Card

Electronic components distributor Digi-Key Corporation, recognized by design engineers as having the industry's broadest selection of electronic components available for immediate shipment, today announced the addition of Honeywell's HumidIcon digital humidity/temperature sensors to its expansive line card.

Honeywell's HumidIconâ„¢ digital humidity/temperature sensors are digital output-type relative humidity (RH) devices and temperature sensors combined in the same package.

Benefits include:

â€¢Elimination of individual testing and calibrating for every sensor, helping to reduce manufacturing time and process.
â€¢Support system accuracy and warranty requirements.
â€¢Optimization of system uptime.
â€¢Excellent sensor interchangeabilityâ€“the customer can remove one sensor from the tape, remove the next sensor from the tape, and there is no part-to-part variation in accuracy.

The highly reliable, energy efficient HumidIconâ„¢ digital humidity/temperature sensors are available for purchase now on Digi-Keyâ€™s global websites.

As the leading integrated Internet-based distributor, information about and inventory of millions of products is accessible to customers around the globe, with all products shipped from Digi-Keyâ€™s single, North American location. The companyâ€™s integrated business model provides product and support information online to help put engineers and procurement professionals in control as they solve tough product development challenges.

The companyâ€™s online offerings and resources include: an interactive online catalog; PTM Online...On Demand product training modules; TechZoneSM technology zones; Another Geek Moment videos; Digi-Key toolbar; PurchasingPro for electronics buyers; TechXchange; a Mobile and Social Center; and a Reference Design Library.
