

January/February 2013 — TD-LTE A Global Standard

WDD Staff

The January/February issue of Wireless Design and Development contains features on an assortment of topics, including:

- Moore's Law Meets RF
- Transmitter Measurements on Multi-Standard Base Stations
- Monetizing LTE Investments: Dynamic Policy Management
- Wireless Communication Systems
- Turning Ideas into Validated Products
- Addressing Bandwidth Challenges

Check out our Brainstorm on Power Source Design, and or product teardown section - "What Makes it Tick & Talk" - to see the guts of the iPhone 5.
