

Carlisle Interconnect Technologies Receives Boeing Performance Excellence Award

Carlisle Interconnect Technologies announced that its interconnect division located in El Segundo, CA has been named a recipient of the 2011 Boeing Performance Excellence Award (BPEA) for a third consecutive year, 2009, 2010, and 2011 based on its superior supplier performance. Boeing issues the BPEA annually to recognize those suppliers who have maintained superior quality and delivery performance. Carlisle Interconnect Technologies maintained a Silver composite performance rating from October 1, 2010 through September 30, 2011.

“Carlisle Interconnect Technologies Performance Promise is exceeding our customers’ expectations by developing innovative products that are delivered on time with superior quality and service,” said John Berlin, President of Carlisle Interconnect Technologies.
