

FCI Electronics Appoints Alessandro PERROTTA as New CEO

FCI Electronics

Etters, PA — [FCI Electronics](#) [1], a 555M USD leading provider of high-speed and power connectors and interconnect solutions for the datacom, consumer and industrial applications today announced the appointment of Alessandro Perrotta as Chief Executive Officer based out of Singapore, effective on February 13, 2013.

Alessandro holds master degrees in electrical engineering and business administration.

He previously served as Corporate Vice President and Group General Manager of the Mobile Consumer Product Division with Amphenol Corporation.

More recently, Alessandro was Executive Vice President Wafers, Cells & Modules at Renewable Energy Corporation based in Singapore.

"I am very pleased to welcome Alex to FCI. His deep knowledge of the electronic connector industry as well as his extensive experience in Asia will be important to accelerate the successful growth FCI has experienced as well as continue delivering innovation, service and value to our customers", says Walid Sarkis, Managing Director of Bain Capital.
