

Connector Series Provides Robust Mating Connection

Compel released the 1.0/2.3 connector series. With 50 ohm versions operating to 10 GHz and 75 ohm versions operating to 3 GHz, the new 1.0/2.3 line offers threaded, snap-on, slide-in, push-pull and DIN mating configurations.

Designs are available for cable, PCB and bulkhead mounting in straight, U and angled styles. The family includes in-series adapters, monitor points and terminations.
