

Key Fob Enclosure

Polycase has launched its newest plastic enclosure for the electronics industry, the FB-20 Key Fob. This enclosure features a slender design with an hourglass shape for an ergonomic, handheld fit. The FB-20 enclosure comes in black ABS plastic and is available in five styles — from one single gray rubber button or up to five buttons total. It is ideal for wireless remote controls of all types and good for applications that require transmitting a signal or series of individual signals or commands such as automotive, security, or data logging applications. Versatility of the FB-20 case includes snap together design (no screws) and a recessed label area on the back. Keypad button printing/decorating is available. Size is 2.245× 1.370× 0.340.
