Surface Mount TCXO/VCXO

Piezo Technology introduces a new surface mount TCXO/VCXO product for wireless applications. Model XO3080 is available for frequencies between 10 and 125 MHz offering ± .75 ppm over the temperature range of – 30 ° C to 70 ° C. This unit features a 5 volt supply, good phase noise performance, and superior aging performance housed in a .98 × .69 × .22 inch true SMT reflow package. Extended temperature ranges are available with modified stability performance.
