

## Ultra Miniature Coaxial Connectors-UMP Series

Radiall is pleased to launch the next generation of SMT coaxial connectors. The main interest of this product line called MMP (Micro Miniature Pressure contact) is cost reduction thanks to innovative technology.

Included in the MMP product line, the UMP series (Ultra Miniature Pressure contact) features 2 mm high mated connectors (board to board cable link). It can be used either on board, or on edge application thanks to his lateral connection.

UMP connectors offer an operating frequency of DC to 6 GHz. The VSWR of the mated pair is 1.07 at 2 GHz.
