## 5-Row and 8-Row Shrouds

FCI Electronics customers using the Metral( 2000 Header in a mid-plane application can now order the Metral( 2000 Shroud. The shroud is available in either a 5-Row or an 8-Row. In mid-plane applications, the Metral(2000 Header with Rear Plug-Up (RPU) tails is inserted into the board. The Metral(2000 Shroud is then pushed down over the RPU tails.
