

## Cable Assemblies and Adapters

Microwave Distributors Company has published a 60 page catalog featuring an extensive line of standard flexible and semirigid cable assemblies, and coaxial adapters. Also included in this handy, desk size catalog are a few of MDC's other RF/Microwave components such as Isolators, Circulators, Detectors, Limiters, Attenuators, Terminations, and Phase Adjustable Adapters and Connectors. The catalog tabulates over 3,000 standard cable assemblies in 12" increments up to 72", with virtually any connector combination consistent with the cable size. Custom Cable Assemblies including High performance, Low Loss Cables operating to 40 GHz and value added services are also discussed. The Adapter section of the catalog includes virtually every type of inter and intra series coaxial and coaxial to Waveguide transitions with most available from stock.
