

Molex

www.molex.com

Molex RF/Microwave Connector Division designs and manufactures custom and standard RF microwave connectors for instrumentation, mil/aero, and telecommunications applications. This includes all series and styles of MMCX, MCX, SMA, SMB, BNC, TNC, N, DIN 7-16, and cable assemblies. We provide our customers quick-reaction sample and prototype services as well as an extensive offering of special custom/derivative connectors.
