

OCXOs

The FTS501AH OCXO meets stratum level accuracy requirements, making it ideal for use in base stations, telecom switching, GPS, and test and satellite equipment. Frequency stability is ± 177 250 ppb over the standard temperature range of 0 $^{\circ}$ C to 70 $^{\circ}$ C and an overall accuracy of ± 177 4.6 ppm for all conditions over 10 years. Frequency range is 10 to 40 MHz. Supply voltage is 5.0 V, with 3.3 V available, and control voltage is 0.5 to 5.0 V. Storage temperature range is -50° C to 85 $^{\circ}$ C.
