Power T Switch

The 511H-730322 offers a solution for S-Band and C-Band redundancy systems. Maximum weight of this high power T switch is 195 grams. DC characteristics include 32 - 43 V DC (42 V DC nominal) operating voltage and 510 mA (maximum) operating current at 43 V DC and 20°C. Equipped with a random latching actuator, this device switches in less than 25 ms.
