

Shortform Catalog

Schroff has released a 4-page color catalog detailing the new line of packaging solutions for Advanced TCA[®]153. The catalog includes features and technical specifications for Schroff's new ATCA backplane and 12 U development system, both available in 14-slot, full mesh configurations, as well as the ATCA CompactPCI 2.16 adapter board, front panels for both front and rear boards, and filler panels for covering empty chassis slots.
