

Free Web Seminar on Jitter Measurements in High-Speed Digital Circuit Designs

Agilent Technologies will hold a free, interactive Web seminar titled "Jitter Measurements in Digital Circuits," which will review jitter measurements in digital circuits, how different measurement techniques are best applied, and how data rate increases may change jitter measurement techniques.

Jan. 24, 2003: 6 a.m. - 7:30 a.m. PT and 8:30 a.m. - 10 a.m. PT.

For more information, to register for a live seminar or to view an archived seminar, visit <http://www.agilent.com/find/sigint>.
