

Omnidirectional Antenna

Pacific Wireless introduces a rubber duck omnidirectional antenna for 802.11, 2.4 GHz WLANs. Model IN24-5RD features 5.5 dBi gain. The antenna also features a 360° horizontal transmission pattern and a 50° vertical transmission pattern. The transmit/receive element can be tilted to 0, 45 and 90° in relation to the base equipment. Specifications include a frequency range of 2400 to 2485 MHz, 50 Ω impedance, 10 watt input power and operating temperature of -150 $^{\circ}$ C to +60 $^{\circ}$ C.
