

2004 Master Catalog

Transcat introduces its 2004 Master Catalog. The catalog features over 700 pages containing more than 25,000 calibrators and test instruments for electrical, electronic, pressure/flow, and temperature, and recorders and data acquisition equipment, telecom/datacom instruments and a selection of tools from Fluke, Transmation, AEMC, Hanwell, Altek, Megger, Druck, and Hart-Scientific. The catalog includes product information including features, benefits, complete specifications and pricing. The catalog also includes an engineer's notebook to assist with technical questions, thermocouple reference tables, a glossary of terms, and a complete index by both product and manufacturer. Each section of the catalog is color coded.
