Coaxial Isolator Handles 50 W

Raditek's RADI-3.6-4.2-S3-30WR-c 3.60-GHz to 4.20-GHz coaxial isolator is capable of handling 50 W of forward and reverse power. The device demonstrates insertion loss of 0.40 dB, isolation of 20 dB and VSWR of 1.25:1 in a temperature range from 0°C to 60°C. The coaxial isolator measures 25.40 × 39 × 21 mm and includes SMA female connectors.
