

## **Power Sources Unlimited, Inc. Announces the Traco Power TEN 15WI Series of DC-DC Converters**

The TEN 15WI series is a family of high performance 15 Watt DC/DC converter modules featuring ultra wide 4:1 input voltage ranges in a 1" x 2" x 0.4" package with industry standard footprint. Input voltages up to 75 VDC, excellent EMC characteristics and EN 55022, Class A and FCC, Level A approval make this product the best choice for many demanding applications including railroad and transportation systems. Standard features include Remote On/Off, over voltage protection and under voltage lockout. Units designed to include short circuit protection in a six sided shielded case with I/O Isolation of 1500VDC. Low input current characteristics at minimal load make these converters also the ideal solution for battery operated systems. Typical applications are in wireless networks, telecom/datacom, industry control systems and measurement equipment.

Extended temperature range is -40°C to +85°C. Additional standard option includes heat sink TEN-HS4.

Deliveries range from stock to 6–8 weeks and are competitively priced beginning in the mid \$20's in OEM quantities.
