

AC-DC Power Supply Combines High Power Density and Ultra-High Efficiency

Power Sources Unlimited, Inc. announces the new 360 watt high-efficiency CFM361S Series of AC-DC power supplies with unparalleled power density in a small footprint. These units are perfectly suited for telecom, ITE and industrial equipment applications.

The CFM361S Series consists of single 12V, 24V, and 48V output models with 5VSB @ 500mA and 12V fan output @ 300mA. Other features include 90-264VAC universal input range with active PFC, operating temperature range of -20°C to +70°C (open-frame) or -20°C to +85°C (enclosed), remote voltage sense and on/off remote control. Open-frame versions are industry standard 3" x 5" x 1.6" footprint while the optional U-frame/cover measure 3.4" x 5.4" x 1.7". All models are safety approved to UL/EN60950-1, EN55022 Class B standards and carry the CE Mark (LVD).

Pricing starts below \$120 per unit in OEM quantities. Prototype quantities are available in 2-4 weeks.

PSUI is the ISO 9001:2008 North America Authorized Distributor for Cincon Electronics.
