

SOR Launches New Electronic Pressure Switch

WDD Staff

[SOR Inc.](#) [1] (Lenexa, KS) has launched an electronic pressure switch that also offers supplemental continuous output (either 4-20 mA or 1-5 VDC). The 805QS is a cost effective, compact loop-powered pressure switch. Its rugged construction and three-year warranty makes the cost of ownership low. Additional features include:

- Set points and supplemental continuous output zero.
- Span points that are field adjustable via optional calibration kit.
- 3 types of switch functions.
