

# Pasternack Expands SMP and Mini-SMP Adapters

WDD Staff

[Pasternack Enterprises, Inc.](#) [1] (Irvine, CA) has expanded inventory of in-series and between-series SMP and Mini SMP adapters for millimeter wave applications. Pasternack Enterprises' SMP and Mini-SMP, also known as SMPM, are coaxial adapters capable of converting multiple connector types including SMP, Mini SMP, SMA, 2.92, 2.4, 3.5, and 1.85 mm connectors. Features include:

- A frequency rating range from 18 to 65 GHz, depending on type and style.
- Cornin Gilbert GPO and GPPO connectors compatibility.
