

Lantronix and Wyless Partner to Deliver Custom 3.5G Cellular Solution Bundle for M2M Market

WDD Staff

[Lantronix](#) [1] (Irvine, CA) announced a marketing and sales partnership with [Wyless](#) [2] to provide customers with a bundled 3.5G wireless solution. The bundle, designed to fast-track M2M application development on mobile networks, comprises the newly-announced PremierWave XC HSPA+ Intelligent Gateway from Lantronix, along with a 30-day free trial of Wyless' network services over the T-Mobile cellular network.

The Lantronix-Wyless Bundle includes:

- PremierWave XC HSPA+.
- Free 30-day Service Trial Network SIM.
- 100 MB Data Usage.
- 100 SMS.
- Private Static IP.
- Private PPTP VPN Tunnel.
- 24/7 Wyless Network Services Technical Support Web Portal Access for account management, control, and reporting.

PremierWave XC HSPA+ highlights:

- Penta-band UMTS/HSPA+.
- Quad-band GSM/GPRS/EDGE.
- Ethernet-to-Cellular routing.
- Ethernet-to-Cellular Failover and Failback.
- SMS: Shoulder tap, relay control, event notification, and tunneling.
- Dual network connectivity (Wired Ethernet and Cellular) for flexibility and redundancy.
- Unique design for quick and easy connectivity to virtually any device with a serial port.
- Extended temperature range for industrial applications.
- 5-Year limited warranty.
