

Pentek's High-Speed, Rugged Rackmount and Portable Recorders

WDD Staff

[Pentek](#) [1] (Upper Saddle River, NJ) has introduced two additions to the Talon family of high-speed turnkey recording systems. The Model RTR 2728 rugged portable and the Model RTR 2748 rugged rackmount recorders use state-of-the-art SSD (solid state drive) storage technology to achieve aggregate recording and playback rates up to 4 GBytes per second. Features include:

- Record and reproduce IF signals with sample rates up to 1 GHz.
- Up to 38.4 TB of hot-swappable SSD storage.
- Designed to operate under conditions of shock and vibration.
