

Pressure Transmitters Eliminate Conduit Requirements

WDD Staff

[American Sensor Technologies](#) [1]

(Mt. Olive, NJ) has offered its AST4300 and AST43LP Class I Division 2 Non-Incendive Pressure Transmitters with a Turck Mini-Fast electrical connection, eliminating conduit requirements from installation. With a Mini-Fast electrical connection integrated into its housing, the Pressure Sensors also make installation fast and simple. The AST4300 series is available with gauge and compound ranges from -14.7 to 20,000 PSI while the AST43LP pressure transmitter can measure low pressure and bi-directional pressures from 1 to 15 PSIG. Additional features include:

- Low pressure measurement for a variety of applications.
- Indoor or outdoor use.
- A variety of pressure port threads & output signals.
