

Bird RF 8941 Series Oil Load

WDD Staff

Whether you are burning-in your RF delivery system or performing a periodic generator calibration, sometimes you need a termination that can handle your entire generator's output at full power. For just that purpose, [Bird Technologies](#) [1](Solon, OH) has expanded its offering of Oil Loads up to a 15 kW. Capabilities include:

- Up to 10 dB peak to average power ratios.
- Operation up to 20 MHz.
- Self-contained cooling system that includes fans.
- Wide range of available RF input connectors.
